Dear Mr. Jackson:

Please accept this letter as a written complaint regarding the hostile work environment the employees in the Commissioners' office have been subjected to. Collectively, we are asking that an investigation be initiated. We are experiencing intimidation and harassment by Commissioner Frenchko who is attempting to displace and remove employees. As you are aware, most of us are long-term employees with exemplary records – we do not take this situation lightly. We just want to see a resolution to this difficult and stressful situation. Thank you for your assistance.

Respectfully,
